DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6, 11-14, 16-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Skedleski et al. '472.

Skedleski et al. '472 discloses a fin as claimed, including a rigid core **31** having registration members **43,44**, and a core covering **314** of relatively flexible material. The registration member are used as claimed. Indicia or logo fails to define over the visible shape.

Re claim 18, the formed leading and trailing edge member is in the form of a sleeve. Re "to slide", such is intended use.

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 15 is rejected under 35 U.S.C. 103(a) as being unpatentable over Skedleski et al. '472.

The relative softness of the leading and trailing edges is considered to have been an obvious design consideration.

Art Unit: 3617

5. Claims 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
